HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. The budget for research to be carried out by order of the DWK during the year 1950 covers the amount of DM 60,000,000. This amount is to be spent by the following Main Administrations as listed below:

Chemistry	DM 8,500,000
Light Industry	4,000,000
Coal	4,000,000
Metallurgy	2,000,000
Stones and Earth	1,000,000
Machine Construction and Electro Technique	about 30,000,000
Energy	1,500,000
Agriculture and Forestry	2,000,000
Traffic	500,000
Food Industry	500,000
Construction Industry	1,000,000
Science and Technical Matters	6,500,000

2. This actually amounts to DM 61,500,000. No explanation can be given for the discrepancy of the two totals.
3. It may be interesting to note that the Main Administration Science and Technical Development disposes directly of only about 10 percent of the entire budget. Many important projects will, therefore, be handled directly by the administrations concerned. Under the present setup, however, all research and development requests had to be approved by the Main Administration for Science and Technical Matters (Research and Development) even if the money came from another administration.
